Professionalism

Integrity, competence, transparency and accountability shape every engagement.

World-Class Team

Bilingual, multidisciplinary consultants, trainers, auditors and industry experts.

Management Systems Excellence

Quality, governance, risk-based thinking and continual improvement embedded in delivery.

02 · MANAGING DIRECTOR'S MESSAGE

Toward sustainable organizational excellence.

Dr. Mamdouh Soliman
Managing Director
Egyptian International Group (EIG)

At Egyptian International Group (EIG), we believe that sustainable organizational excellence is achieved when strategy, governance, innovation, sustainability, and people work together to create lasting value and drive meaningful transformation.

Since our establishment, our commitment has extended far beyond helping organizations achieve compliance with international standards. We have dedicated ourselves to becoming a trusted strategic partner, helping organizations strengthen their capabilities through strategic consulting, organizational restructuring, internationally recognized training, and the implementation of integrated management systems that enhance performance, build resilience, and support sustainable growth.

Today's business environment is evolving at an unprecedented pace. Rapid technological advancement, geopolitical uncertainty, climate-related challenges, evolving stakeholder expectations, and increasing regulatory requirements are reshaping the way organizations operate. Success is no longer measured solely by operational efficiency; it depends on an organization's ability to anticipate change, adapt with agility, and make informed strategic decisions while maintaining resilience in an increasingly complex world.

At EIG, we believe that future-ready organizations are those that embrace Strategic Vigilance, foster organizational agility, strengthen governance, cultivate innovation, and avoid Strategic Inertia. Organizations that continuously learn, proactively manage risks, and respond intelligently to emerging opportunities are better positioned to achieve sustainable success and long-term competitiveness.

02 · MANAGING DIRECTOR'S MESSAGE · CONTINUED

A clear and unwavering vision for the future.

Through organizational restructuring, internationally recognized management systems, governance frameworks, ESG integration, sustainability practices, business continuity, crisis management, enterprise risk management, operational excellence, leadership development, and organizational transformation, we help our clients redesign their operating models, strengthen institutional capabilities, improve organizational resilience, and create measurable value for all stakeholders.

Our multidisciplinary team combines international best practices with extensive practical experience to deliver customized consulting, training, auditing, and organizational development solutions across a wide range of sectors, including oil & gas, energy, manufacturing, logistics, healthcare, pharmaceuticals, construction, infrastructure, ports, maritime, and government organizations.

We measure our success by the success of our clients. Every engagement is guided by integrity, professionalism, innovation, collaboration, and an unwavering commitment to delivering sustainable results that improve organizational performance and create long-term value.

As we look ahead, our vision remains as clear and unwavering as it was on the day we began: to be the preferred strategic partner for organizations seeking sustainable excellence through innovation, organizational restructuring, strategic vigilance, governance, ESG integration, business continuity, resilience, responsible leadership, and continuous transformation. We aspire to empower organizations and individuals to achieve world-class standards—not as a destination, but as a culture of continuous improvement, strategic thinking, organizational agility, and sustainable value creation.

On behalf of everyone at Egyptian International Group (EIG), I extend my sincere appreciation to our clients, partners, and stakeholders for their continued trust and confidence. We look forward to building enduring partnerships, empowering organizations, developing future leaders, and shaping resilient, sustainable, and high-performing institutions for generations to come.

Dr. Mamdouh Soliman
Managing Director
Egyptian International Group (EIG)

03 · DIRECTION & CULTURE

Clear direction. Strong principles.

Vision

To be the trusted partner and preferred choice for organizations seeking practical, innovative and sustainable solutions that drive excellence, resilience and long-term value.

Mission

To empower organizations through world-class consulting, training, auditing and advisory services that enable sustainable growth and operational excellence.

Core values

01
Client Excellence
High-quality service, best practice, innovation and measurable results.

02
Integrity & Objectivity
Independent, evidence-based and transparent professional advice.

03
Confidentiality
Ethical and responsible protection of client information.

04
Accountability
Reliable delivery aligned with agreed objectives and commitments.

05
Innovation & Improvement
Continual development supported by digital enablement and learning.

06
Sustainability
Responsible practices that strengthen long-term economic, social and environmental value.

04 · INTEGRATED SERVICE PORTFOLIO

One partner.
Six connected capabilities.

Our integrated model connects strategic direction, systems, people and implementation—without treating compliance as an isolated exercise.

01

Strategic Consulting & Transformation

Strategy, governance, enterprise risk, ESG, resilience, restructuring, digital transformation and operational excellence.

02

Management Systems & Compliance

Implementation, integration, auditing and certification readiness across international management systems and sector frameworks.

03

Training & Capability Development

Competency-based programs, executive workshops and coaching designed around real workplace outcomes.

04

Supply & Procurement

Qualified sourcing of laboratory, analytical, technical and industrial equipment, consumables and specialist applications.

05

Scientific Services

Testing, validation, qualification, calibration support, environmental monitoring and laboratory-readiness services.

06

Integrated Project Support

Feasibility, specialist coordination and integrated project delivery from initial study to commissioning and handover.

05 · STRATEGIC CONSULTING & TRANSFORMATION

From strategy to transformation.

EIG helps organizations strengthen governance, redesign how work gets done and develop the capabilities required to remain competitive, resilient and sustainable.

- Strategic Management & Planning
- Strategic Vigilance
- Corporate Governance
- Enterprise Risk Management
- ESG Strategy & Reporting
- Organizational Agility
- Business Continuity
- Crisis & Emergency Management
- Corporate Sustainability
- Process Re-engineering
- Organizational Restructuring
- Digital Transformation
- Change Management
- Performance Excellence
- Operational Excellence
- Leadership Development
- Innovation Management
- Asset Performance Optimization

Consultancy & advisory

Organizational diagnostics · regulatory compliance · internal auditing · supplier quality and qualification · mock audits · process improvement · Lean and Six Sigma · project management · validation and qualification · KPI development · executive coaching · digital transformation roadmaps.

06 · MANAGEMENT SYSTEMS & COMPLIANCE

Standards that enable performance.

Consulting, training, auditing and implementation across recognized management systems, governance frameworks and organizational excellence models.

Integrated Management Systems

ISO 9001 · ISO 14001 · ISO 45001 · ISO 13485 · ISO 22000 · HACCP

Laboratories & Life Sciences

ISO 17025 · ISO 15189 · GMP / cGMP · GLP · GCP · GDP · ISO/TS 22002 · CE Marking

Governance & Resilience

ISO 22301 · ISO 31000 · ISO 37301 · ISO 37001 · ISO 37000 · ISO 26000

Sector & Performance Frameworks

API Q1 · IATF 16949 · BRC · ISO 39001 · ISO 55001 · EFQM · Balanced Scorecard

> *"The objective is not certification alone. It is institutional capability that remains effective under audit, inspection and time."*

07 · TRAINING & CAPACITY BUILDING

Build capability. Embed confidence.

Work-oriented, competency-based learning converts standards and expert knowledge into practical workplace performance. Programs are tailored to organizational objectives and delivery context.

Leadership & Strategy

Strategic management, planning and agility · leadership and executive development · organizational behavior.

Quality & Operational Excellence

TQM · Lean manufacturing · Lean Six Sigma · organizational excellence · quality culture.

Business Management

Project management · supply chain management · operations management · change management.

People & Performance

Human resources · time and stress management · team building · customized coaching and workshops.

08 · INTEGRATED SUPPORT CAPABILITIES

Specialist support from assessment to delivery.

Supply & Procurement

Analytical and general-purpose instruments · electrochemistry meters · chemicals and bioproducts · filtration products · laboratory and cleanroom furniture, clothing and consumables.

Scientific Services

Analytical and microbiological testing · medical-device safety evaluation · routine QC and lot release · sterilization studies · packaging and plastics testing · water and environmental monitoring.

Validation & Laboratory Readiness

Method validation · proficiency testing · calibration support · ISO 17025 and ISO 15189 readiness · qualification of technical processes and critical utilities.

Integrated Project Support

Feasibility studies · specialist design coordination · GMP-compliant facilities · integrated delivery from initial study through commissioning and handover.

09 · DELIVERY MODEL

Turning standards into business capability.

A structured transformation pathway connects strategic intent with operating reality and leaves knowledge inside the client organization.

01

Diagnose

Understand organizational context, assess gaps, risks and priorities, and establish a documented baseline.

02

Design

Build practical systems, processes, governance structures and transformation roadmaps around operating reality.

03

Develop

Transfer knowledge through targeted training, coaching and competency development for accountable teams.

04

Implement

Provide multidisciplinary, field-oriented support until the designed system works consistently in practice.

05

Verify & Sustain

Test readiness, support audits, measure outcomes and embed continual improvement for lasting performance.

12 · SELECTED ENGAGEMENT

API Q1 capability for IDM.

A specialized training and qualification engagement on API Q1, 10th Edition, delivered for International Drilling Material Manufacturing Co. (IDM), affiliated with Egypt's petroleum sector.

Applied learning, management-system interpretation and implementation readiness.

13 · INDUSTRY PRESENCE

Connected to Egypt's energy ecosystem.

EIG's participation at EGYPES reflects active engagement with the energy and petroleum community, supporting dialogue around quality, resilience and operational excellence.

EGYPES 2026 · Cairo, Egypt.

14 · PUBLIC-SECTOR CAPABILITY

Practical learning. Institutional impact.

Training and capability-development engagements combine international frameworks with practical tools, exercises and sector-relevant implementation support.

Representative EIG training and institutional-development activities.

15 · WHY EIG

More than compliance. Built for transformation.

01

Integrated Service Model

Consulting, implementation, auditing, coaching and capability development in one coherent delivery model.

02

Practical Interpretation

International standards translated into business-focused processes and operating practices.

03

Experienced Professionals

A multidisciplinary, bilingual team with international certifications and cross-sector experience.

04

Measurable Improvement

Engagements focus on governance, resilience, sustainability, performance and lasting capability.

05

Independent Advice

Recommendations remain focused on client interests and objective decision-making.

06

Knowledge Transfer

Tools, methods and competencies stay with client teams beyond the engagement.

> *"We measure our success by the success of our clients."*

16 · PARTNERSHIP PRINCIPLES

Independent advice. Trusted partnership.

01

Independence

Professional independence keeps recommendations focused solely on client interests.

02

Objectivity

Advice is grounded in evidence, data, international best practice and balanced evaluation.

03

Competence

Recognized qualifications, certifications and extensive industry experience.

04

Confidentiality

Professional ethics and responsible information handling throughout every engagement.

Built for sustainable performance

Quality, governance, business continuity, sustainability and organizational resilience are embedded as management disciplines—not isolated compliance activities.

17 · CONTACT & NEXT STEP

Let’s build the next stage of excellence.

Bring us the organizational challenge. We bring the expertise, structure and practical delivery model to move it forward.
